March 2012 TradingBlock Newsletter

Greetings BlockHeads!

We hope the first few months of 2012 have been productive and profitable. At TradingBlock we have been working diligently to improve and expand the products and services we make available to you. As such we want to make you aware of a few developments!

Those of you have been using our exclusive TradeBuilder to locate and research investment opportunities are already well aware of the power of this system to identify new stock and option investment strategies. For those of you who haven't been using it, A) where is the love? B) you might be interested in our upcoming live TradeBuilder online seminar, hosted and conducted by our very own Jere Wickert.

Jere will provide an overview of the system and demonstrate its ability to instantly identify and rank up to 40 separate investment strategies. He'll also go over basic option spread definitions, and show how TradeBuilder integrates with our proprietary Trade Analyzer, as well as our online one-click trade execution system. Click [here](#) to register for this unique and informative event!

We don't have to remind you that on April 15th the Taxman cometh, but we *did* want to mention that April 15th is also the cutoff for 2011 contributions to your TradingBlock IRA. Most participants are allowed to contribute up to \$5,000 for 2011 – visit our [qualified plan information page](#) for more information. Don't have a Tradingblock IRA yet? Contact our friendly sales representatives at 1-800-494-0451 or [apply online](#) now!

Thank you for your continued business, and don't forget to contact us with any questions, concerns, suggestions or good one-liners.
